Subcontracting Division

Subject: Presentation of EDIFICA USA LLC - SUMMUM

Dear Mr. Park,

We received with great interest your e-mail dated July 1<sup>st</sup> requesting information about EDIFICA USA LLC. Therefore, we are pleased to submit the required questionnaire with its attachments, along with a brief presentation letter. To develop major projects in the Latin America region, we work as SUMED partnership (EDIFICA USA LLC and SUMMUM).

As an overview, SUMMUM PROJECTS belongs to SUMMUM CORPORATION, which is owned by the following shareholders: **ALBERTA INVESTMENT MANAGEMENT CORPORATION (AIMCo), THE ABRAAJ GROUP, CP-VAL, and ALTRA INVESTMENT.**

SUMMUM PROJECTS is one of the leading engineering companies in Latin America, specializing in a variety of sectors including infrastructure, Oil & Gas, refining, petrochemicals, and power. Our history starts back in 1995, when the Venezuelan firm INELECTRA founded INELECTRA INTERNATIONAL and arrived to Colombia with a clear vision of expansion and leadership in engineering and construction. This has guided the company to a leading position in this industry, being recognized for its capability of assuming full responsibility in all stages of the implementation of a major project; including design, construction, start-up, and operation. Later, in July 2010, INELECTRA INTERNATIONAL was acquired by TIGER COMPANIES, including all the technical knowledge and project credentials. Finally, in July 2016, TIGER COMPANIES launched its new brand SUMMUM responding to the new challenges of the market that require adding value through Partnership Working for complete solutions.

Through the years passed, SUMMUM has successfully performed in most of the Latin American market, including: Argentina, Bolivia, Colombia, Ecuador, Mexico, Panama, Peru, and Trinidad and Tobago; executing projects with safety and high quality standards. Moreover, we have achieved strategic alliances with Major EPC Contractors such as: BECHTEL (2016), AVANZIA INSTALACIONES (COBRA in Mexico, 2009), MORELCO (GRAÑA Y MONTERO in Colombia, 2012), ARENDAL (2013), among others.

Please feel free to contact our local Principal in Lima at your best convenience. His contact information is the following:
